XII. Adoption of Ordinance 2022-04 (An Ordinance Adopting the Town's Expenditures for the Year beginning July 1, 2021 thru June 30, 2022)

Alderman Wysinger Cleveland- inquired if the recreation funds were going to be amended in Ordinance 2022-03?

Mayor Gerald Brown- answered, if you look what I have listed under the American Rescue Plan that is where I want to go, to each non-profit that existed prior to the pandemic, I would like to donate funds to all of those.

Alderman Wysinger Cleveland- stated, he would like to see funds put back in the community, such as the roads getting fixed as well as sewer, I noticed down on MLK down there,

***** For the record:** *Ms. Potter and inaudible.... Need a water hookup line.*

They have to run their water line all the way back to Robinson Road, road construction on Highland Road, and the sewer.

Mayor Gerald Brown- advised, again in the letter of documentation that I have sent you, that is what I am proposing that 3/4th's of the American Rescue Plan money about 1.1 Million that we dedicate all of that to Capital Improvements, which is roads, which is sewer, which is building, because all those type of things require matching funds, we will have to go out and seek funding, but all of those things are going to require 10, 20, 50 percent matching funds, and that is what we would use that money.

We should have the 2nd half of the funds by sometime towards the end of August.

Alderman Leola Keys- addressed the forum and stated, first I want to say, and I hope this is not taken the wrong way, I don't answer to man, I don't answer to the Legislative Auditors, I answer to a higher power. Let me address some of the things I find unpleasant to me and this Town... Mayor Brown all I am asking is that you, do what you know is reasonable within your own conviction for the people of this Town; now I want to talk about that \$ 90,000 settlement, primarily for Mr. Thomas and Foster Construction. All I ask is one question, and I am going to try to remain quiet, when I get upset, I get loud...I want you to get what I am saying tonight. In the last of last year, I recall we proposed \$90,000, now I want to know, the Board went along with that proposal, am I right, to your best understanding?

Mayor Gerald Brown- answered, Yes.

Alderman Leola Keys- stated, okay, so what happened then that did not get taken care of ?

Mayor Gerald Brown- I would like to address each one of those separately.

Alderman Leola Keys – responded, I am just talking about Mr. Thomas and Mr. Foster.

Mayor Gerald Brown- stated, let me start with Mr. Thomas.

Alderman Leola Keys- responded, okay, go ahead.

Mayor Gerald Brown- stated, in Mr. Thomas's situation it was brought to our attention, by our attorney, that he may have done somethings that were contrary to the law, some of the things he may have done might preclude us from having us to make that payment to him.

Alderman Leola Keys- stated, I believe we were waiting on the opinion from the attorney, how long will we have to wait on that, and how long have we waited on that?

Mayor Gerald Brown- answered, I think we started that in March with the opinion, but I can tell you from personal experience that sometimes it can take some time. They have acknowledged they have received it and assigned it to somebody.

Alderman Leola Keys – stated, okay, I am going to move on from that, because to me there is a little dragging your feet on that; now I am going to move on from that, because I came here tonight to vote for this budget one way or the other for this budget, and what I hear tonight is going to determine whether I vote for it or not, I want to vote for it, I want it to pass.

I know this proposal for brick and mortar, schools, churches and non- profits, that is good, I have asked that we look for the greater needs first. Mr. Cleveland have already said we are looking at churches we are looking at schools, we are looking at non-profits; and the last time I looked the schools are not in the boundaries of the Town, and I am not angry with anybody, but this is why the citizens put me in here. The schools may not be within the corporate limits, when I look at that sign that says Richwood Corporate limits.

Mayor Gerald Brown- that is right, they're not, they're not, that is why we are discussing this; the reason I have proposed doing things for the schools is because our children which live here, are educated at these schools; I am not talking about every school in the parish, I am talking about, schools that have children that live in the Richwood; Richwood Middle , Robinson, Swayze, and Richwood High. All of these schools we have children that attend these schools; my reasoning is by assisting these schools we are assisting our children , but again we can discuss this.

Alderman Leola Keys – stated, let me say something; surely that is a good thing to donate to brick-and-mortar schools, but when I know of a citizen on Martin Luther King, I think two, that is incapacitated with sewer and water like that, I think that is when we need to drop our before we donate to schools. I think we should specific needs instead of being nonspecific reference in the budget. I done.

Mayor Gerald Brown- stated, we can specify projects instead of people...

Alderman Leola Keys- stated, can't we say we will take care of infrastructure on the lower end of Martin Luther King?

****A discussion continued on the proper reference to list prospective projects as to other areas which may also have concerns of projects.*

Mayor Gerald Brown- stated, that is why he is suggesting to contract with an engineer which can look and determine how we can get the best bang for our bucks.

Alderman Leola Keys – recommended a committee be formed to determine the projects to address, we don't have to name names .

Mayor Gerald Brown -stated, that is what I am saying ... that's what capital outlay is...

Alderman Leola Keys -said that we talk a good talk, but why can't we establish a committee to look at this ?

Mayor Gerald Brown- stated that is a good idea, but a committee won't be able to do anything without dedicated funds

**** A discussion ensued****

Alderman Leola Keys- stated until

It was moved by Alderman Simeon Profit and seconded by Alderman Wysinger Cleveland to adopt Ordinance 2022-04(An ordinance adopting the town's expenditures for the year beginning July 1, 2022 thru June 30, 2023)

- **The record shall reflect a vote was taken with the following results:**

Alderman Simeon Profit Yes

Alderman Leola Keys No

Alderman Wysinger Cleveland No

Alderman Leola Keys- inquired if we were voting on the adoption of this budget?

Mayor Gerald Brown – answered, Yes.

Alderman Leola Keys -stated, I hope the persons sitting out there have understood everything she has said and as a result of what I have heard, and my conviction is I don't answer to the Legislative Auditors, I answer to God and I am going to see about these people as long as I live, and **my answer is No, put it down.**

*****Per Alderman Wysinger Cleveland*** The record shall** reflect Alderman Wysinger Cleveland stated*** Let the Record Reflect the same as Mrs. Keys, let's take care of the citizens first, then we can take a look at the non-profits.

Mayor Gerald Brown- stated, so let me ask this, then as I go back and work the numbers, are you saying we want to take all this stuff out? The non-profits, churches, schools take that out?

Alderman Wysinger Cleveland – replied, I'm not saying that Mayor, lets get to the table and

Mayor Gerald Brown- I'm asking a question, I don't know anymore, I have called, texted, I've been asking y'all for two months... and you do this tonight, lets go ahead and work it out, if you guys are saying, no we don't want to give money to the non-profits, we don't want to give any money to the churches, we don't want to give any money to the schools, we want all money calculated through, just tell me that.

Alderman Leola Keys- stated, we can handle up on it, but I am saying this, pay Foster, pay Cliff and then we can move on.

Mayor Gerald Brown – stated, we are going into executive session to discuss Foster, and what the Board voted for us was to get an opinion from the Attorney General and so that is what we have done and that is what we are waiting on now.

Alderman Leola Keys -stated, I am telling you the truth, that Attorney General is slipping and sliding it does not take that long.
